PROFILE SUMMARY

Results-driven Software Developer with a CGPA of 9.0 in Electronics & Communication Engineering and hands-on experience in building scalable, user-centric web and mobile applications. Skilled in React, Next.js, Tailwind CSS, Firebase, and cloud technologies, with proven success delivering AI-driven solutions, ed-tech platforms, and web3 projects. Experienced in end-to-end development, collaborating in startup environments, and contributing to products with 500+ global users. Passionate about leveraging modern technologies to create impactful digital experiences.

EDUCATION

B.E in ECE, HKBK COLLEGE OF ENGINEERING 2025
CGPA: 9.0

PROFESSIONAL EXPERIENCE

Eekee.ai – *Contract Worker* August 2025 – Present
- Contributing as a core team member to develop an AI-driven mental health platform helping users discover their Ikigai.
- Built and maintaining mobile and web apps with features like authentication, quizzes, and real-time audio chat.
- Working on product refinement and scalability, growing the platform to 500+ global users and preparing for seed funding.

Nemaly pvt. limited – *Freelancer* June 2025 – August 2025
- Developed a legal document e-drafting and e-stamping platform powered by AI to automate legal workflows.
- Working on both frontend and backend; primarily responsible for AI integration and frontend development using React and Tailwind CSS.
- Collaborating with a small team to design intelligent features, ensuring a seamless and responsive user experience.

LEVEL-UP Design Studio – *Freelancer* Mar 2025 – June 2025
- Developed the company's portfolio website to establish a strong online presence.
- Designed a responsive frontend using React and Tailwind CSS, incorporating best practices in UI/UX and smooth animations.
- Enhanced technical and managerial skills through active collaboration and hands-on project management.

WEB3FORALL – *Intern* Aug 2023 – Nov 2023
- Gained hands-on experience in state management and implemented advanced React hooks for optimal UI performance.
- Developed EduCrypt using React, Solidity and Firebase contributing to a web3-focused project.

TECHNICAL SKILLS

Languages	Java, JavaScript, SQL, Solidity.
Frontend	HTML, CSS, React.js, Next.js, Tailwind CSS, Framer Motion.
Backend	Nodejs, Expressjs, SpringBoot.
Database	MongoDB, MySQL, Firebase.
Devops	AWS, GitHub, Docker.
Miscellaneous	Large Language Models, IOT, Blockchain.

PROJECT EXPERIENCE

Eekee.ai (ongoing)

- An AI-powered mental health platform that helps users discover their Ikigai. As a core team member, I contributed to both mobile and web applications, implementing authentication, quizzes, audio chat, and other key features. The platform currently has 500+ global users and is being refined for scalability and seed funding.
- Tech Stack: Next js, Firebase, React Native, TailwindCSS, Google Cloud.

Nemaly

- A legal document e-drafting and e-stamping platform being developed using AI to automate and simplify legal workflows.
- Tech Stack: React, SpringBoot, Gemini API, MySql, AWS.

Level-Up Design Studio Portfolio

- A portfolio website built for level up design studio to showcase their projects
- Tech Stack: React, TailwindCSS, Email API, Framer-Motion, Javascript.

Boardly.in

- An ed-tech platform offering resources for CBSE board exam preparation. Led the frontend development of the website.
- Tech Stack: React, TailwindCSS, Javascript, Framer-Motion.

Medical Report Analysis

- An AI-driven website that stores and analyzes patients' medical reports and provides personalized diet plans, featuring a custom chatbot for user queries. Developed as a major project.
- Tech Stack: Nextjs, Typescript, Nodejs, Firebase, Google Gemini API.

HONORS & AWARDS

- Won a 100-dollar bounty from ICP Crewsphere's UR-Hackathon 3.0.
- Won an FPGA kit from AMD for performing well in the ideation round.

CERTIFICATIONS

- Get Started with Figma: **Coursera**
- Introduction to Front-End Development: **Meta**
- Programming with JavaScript: **Meta**
- HTML and CSS in depth: **Meta**
- Version Control: **Meta**
- Python and Flask: **Udemy**
- Sensors to Cloud: **IEEE**

EXTRA-CURRICULAR ACTIVITIES

- **Event Check-in Coordinator, Flow Hackathon:**
  Served as the event check-in coordinator during the Flow Hackathon organized by WEB3FORALL during my internship**.**
- **Event Coordinator, ISTE Quiz:**
  Coordinated an ISTE-hosted quiz event at college, collaborating with a team to ensure its success.

HOBBIES

I like playing guitars, games, building with Arduino, and watching and playing cricket.
